ATO HYDRAULIC POWER **ATO POWER UNITS**

PT Hydraulics builds Power Units to your specifications. New to the range, these power units are built from quality imported and locally sourced components.

Each unit is finished with satin black powder coating as standard or your choice of colour or coatings.

PT Specialises in fully wired Power Units with Pendant or Wireless controls or just start-stop buttons on the enclosure at a very competitive price.

PT have designed a custom quoting program to quote standard units in minutes, including a loom and pendant.

*Power Units carry Pt's
"ATO Power" logo
or can carry
your own Company Logo*

Other components available on the Power Units are:

- Gear or Piston Pumps
- Manifolds with up to 6 Valve option
- Hi-Lo Manifold
- Pressure Gauges
- Test Points
- Filler Breathers
- AC or DC
- Suction Strainers
- Return filters
- Coolers
- Manual or Solenoid DCV's
- Control Subplates
- Pressure Switches
- Level Temp Gauges
- Pendants or Wireless Controllers
- Wiring Looms
- Tanks 20ltr to 400ltr

All Units are quoted to customer specifications.
