Power Team HCR Series of cutting tools offer a compact and lightweight tool for cutting cable, wire and bar of up to 50mm. The 6 HCR Series cuts up to a diameter of 19mm whilst the 13 HCR Series Remote Hydraulic Cutting Tool is designed for expanding cutting capabilities up to 50mm. Designed to reach tight places, they are equipped with a hinge flip top head and pressure matched quick coupler. Both top stationary blade and bottom advance blade can be replaced in the field with ease.

POWER TEAM®

25 Series Booster Pumps

The Power Team Booster Pumps offers an easy and innovative way of boosting low pressures up to a maximum of 700 Bar. Power Teams 25 Series Booster pumps are reservoir free hence use low pressure oil from an external source. The low –pressure oil is pump through the booster which intensifies the oil pressure up to 700 bar enabling the use of high pressure tools and equipment.

Further features of Power Team 25 Series Hydraulic Booster Pump include:

- Designed to intensify low pressure systems from 280 bar up to 700 bar
- Two speed pump for rapid ram advance
- Designed to operate with external hydraulic oil systems
- All position mounting operation
- Design permits operation on open or closed centre systems
- High pressure safety relief valve
- Carrying handle for portability

handy hydraulic hint

Hydraulic machinery that is used in a very dusty and windy atmosphere require special components to achieve optimal performance. Consider using heavy duty breathers and chrome plated piston rods along with frequently changing the filter cartridges in order to achieve best results.
