

WHAT'S NEW IN FPP ?

PT Hydraulics Australia now offers...

THERMO - cut out

PT Hydraulics now offers a Thermo Cut-Out switch which will save you burning out expensive DC Motors. The new Thermo-Cut out fits easily onto all DC motors and activate when temperatures reach 100°C preventing your motor and start solenoid from overheating and being destroyed. The switch is able to be fitted to your existing power units and will be fitted to your future power pack orders upon your request.
