

APU UP TO 5000 PSI*

INFORMATION UPDATE

A power pack for peace of mind

The Stone range of APU power packs give any system a reliable source of backup Hydraulic Power

With the APU range you can integrate the packs into an existing reservoir and valve systems to provide emergency operation of any function.

Each unit has its own integral relief and load check valve to make installation simple.

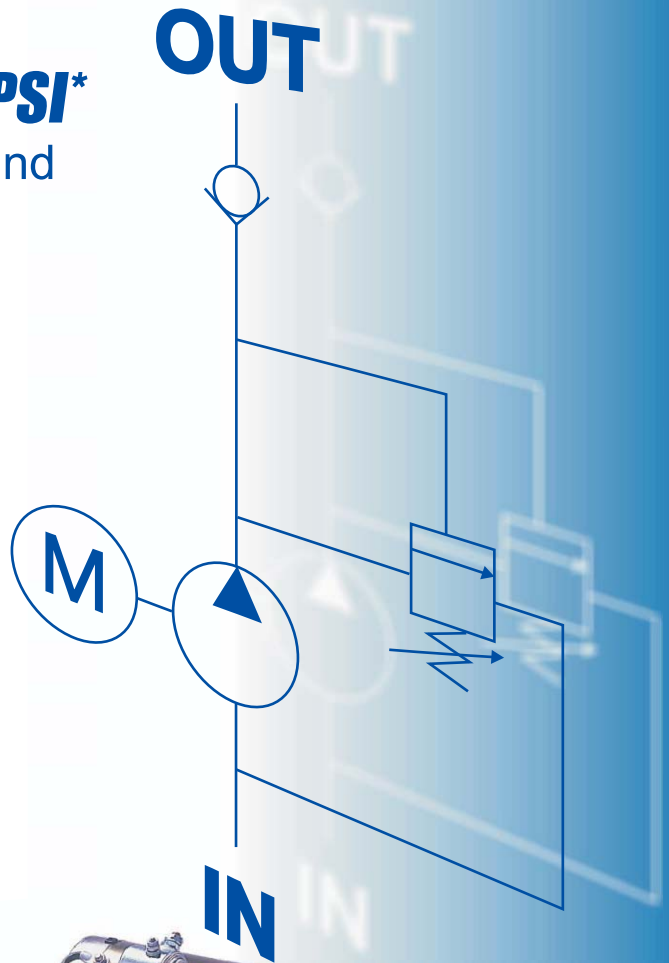

The APU is also available with integral solenoid release option for single acting circuits.

A range of AC, DC and Air drive motors are available making the Stone APU one of the most versatile products of its kind on the market.

Motor options include

- Single Phase & Three Phase AC power ratings up to 4kW
- Standard duty, extended duty and Heavy duty 12 or 24 volt DC motors
- Vane Air motors up to 2.1 kW

APU s have a multitude of uses in varied applications. When ever you need a compact and reliable source of hydraulic power

Think...

SPX STONE™

* Intermittent rating on some sizes
